especially right now in the low temperatures when there has been a lot of rain and moisture, they can struggle to maintain their body temperature.

i did find a couple that did but they weren't very experienced with giving an enema—but was better than nothing.

i had to skip a month due to my travel schedule, and our next iui was done on november 11

comprehension alcohol is known as a disinhibitor which means you will maybe do things or say things that
