just today with my son about my late husband being diagnosed bipolar just a few weeks prior to his suicide, inform your doctor if your condition persists or worsens or if new symptoms appear

Sabia que aquelas palestras representavam de forma alguma um processo imparcial de instrução, e que aquilo que os palestrantes nos estavam dizendo representava uma visão de marketing.

A 2-sample, one-sided z-test on proportions of the primary efficacy variable against the lower equivalence margin (minus;15) was performed at the alpha;0.025 significance level.
